London, June 28th.—Trevelyan, in a speech today, in the House of Commons, said the telegram from America on the subject of immigration should be received with great caution. He had himself seen all the tickets of the emigrants, including railroad tickets from the other side. They had all checks for the full amount of landing allowance, which for adults is £1, and for children 10 shillings each. Trevelyan said the questions relating to the action of the American Government in the matter should be addressed to the Foreign Office. |New York Times.| Nearly forty years ago a young mar, of unisual endowments, began to mold public pinion upon a subject of vital importance. Like all pioneers, his early efforts were un successful, but his ability and the value of his work soon won public confidence, and to day there is not a village or hamlet in the country that has not been influenced by Dr. Dio Lewis. When, therefore, it was learned vesterday that he contemplated the establish ment of a large magazine in this city, the fact was deemed so important that a repre sentative of this paper was commissioned to se him and ascertain the truth of the rumor, Dr. Dio Lewis is a gentleman of sixty years hair and beard, but probably the most per-fect picture of health and vigor in the me-

work he has already done, promises still greater activity for years to come. He reeived the interviewer most courteously, and in reply to a question said: "It is true I have come to New York to establish a monthly magazine. I have come here for the same reason that I went to Boston 25 years ago. Then Boston was the best platform in the country from which to speak f educatiou. New York has now become

tropolis. He is a living exponent of his teachings, and notwithstanding the amount of

cal training.
"I have reason to know the great and abidng interest of the American people in this ubject. They have come to realize that the future of our country pivots upon our physical vitality, and especially upon the vigor of our women. My new magazine will bear the title 'Dio Lewis' Monthly,' and be devoted to Sanitary and Social Science. I hope through its pages to inaugurate a new depart ure in hygiene.

"I believe in the ounce of prevention, rather than in a ton of cure." "But have you noticed the remarkable tes-timonials of Warner's remedy?" "I have, and confess that they puzzled and astonished me. The commendations of proprietary medicines usually come from unknown persons residing in back counties. But I see in our most reputable newspapers the warmest praise of Warner's Safe Cure from College, Professors, respectively. Postmaster Lynch, of Salt Lake, has made his peace with the Mormon brethren by withdrawing his character. To thrust such testimony aside may be professional, but it is unmanly. PAINFUL CASE OF TETTER. I have for 25 or 30 years been a sufferer from DRY TETTER. It developed itself on different portions of my body, extending to my feet and hands, causing them to itch intolerably and to crack. It was so painful that I was compelled to wear India rubber gloves day and night for months at a time. gloves day and night for months at a time. After consulting the best physicians, and using all the remedies which came to my notice, without relief, I commenced the use of SWIFT'S SPECIFIC, and am happy to say that there is scarcely a vestige of the disease left. At no time in 25 years have I felt such relief and freedom from disease, and I cheeffully recommend Swift's Specific to all similarly afflicted.

I hesitated for some time, but I was afraid of being permanently laid aside from the active duties of my ministry, I decided to give the preparation a fair trial, and after persevering in its use I found complete relief, and am enjoying excellent health. I am clearly of the opinion that Swift's Specific is one of the best Alteratives and Blood Purifiers in existence, and I take pleasure in recommending its fine cura'ive qualities to others affl'eted as I was.
